# Supporting a Grateful Community

Proportional giving recognizes that giving back to God is a journey and that tithing is a level of giving to work towards. It requires us to make a conscious effort to determine an appropriate level of giving for today, and then to be open to allowing our giving to grow in the future. The Proportional Giving Chart might be helpful. Consider increasing your pledge by one percent of your income each year. This practice of giving has the power to transform lives and shape the souls of many.
